"What is entrepreneurship?" Entrepreneurship is the act of creating a business or businesses while building and scaling it to generate a profit. However, as a basic entrepreneurship definition, it's a bit limiting. The more modern entrepreneurship definition is also about transforming the world by solving big problems. Like initiating social change, creating an innovative product or presenting a new life-changing solution.

**SUMMER - We will need many volunteers for several Faith Build Days to construct our Habitat House that will involve a number of other churches. Plan to set aside time to help with Habitat.**
